# Market Information

The Grand Blanc City Farmers Market (GBCFM) will be made up of a combination of Grower/Producer Vendors, Food Vendors, and Handmade Arts and Crafts Vendors. Because the Farmers Market is built around the number of Grower/Producer vendors, our primary emphasis will be on these vendors. All vendors will be admitted based on the type of product needed at the Farmers Market. We will look at the different types of products being offered and determine what types will enhance the market and be the most attractive to our customers. Applications will be accepted throughout the 2020 market season.

“Our mission is to establish and operate a community supported farmers market that provides: viable economic outlet for Michigan farmers, crafters, artisans, and food producers, local access to farm fresh products, support for local businesses, vibrant location for economic activity and community gathering place, and education concerning food and sustainable agriculture”.

## **Vision**

- To build a permanent structure for the farmers market.
- To be an example and mentor for farmers markets.
- To spur economic development in the downtown.
- To create a “sense of place” in the downtown.
